million they had just withdrawn from a bank at about 8 a.m. The robbers who may

They resumed operations after security was beefed up in the area.

spokesman, Lt.Col.Sagir Musa, confirmed the incident, describing the kidnappers as "a bunch of criminals kidnapping for their pecuniary gains." He called for useful information from members of the public and JTF.

Meanwhile, the Movement for the Emancipation of the Niger Delta (MEND) has dissociated itself from the kidnapping of the Lebanese citizen in Port Harcourt.

MEND, in an online statement to *P.M.News*, said that the group "will assist the victim's employer rescue and return him unharmed by locating and negotiating with his abductors. This assistance is purely a goodwill gesture and does not affiliate us with the government in any way."

MEND added that: "We wish to state that we are watching the situation concerning Henry with keen interest and if the government fails to do the right thing, no elders will be listened to when the trouble begins."

NGO Commended Over Potable Water

The community leader of Mboke Nwoye Imerienwe Owerri of Imo State Chief Kenny Amadi has commended the chairman and co-founder of Stitching Water Life Africa,

a Non-Governmental Organization (NGO). Mr. Steve Obinna, for providing pipe borne water for the community.

Amadi said this while presenting a letter of appreciation

to Mr. Obinna. He stated that with the project, Obinna has saved the community from water borne diseases which had become the order of the day in the area.

Amadi said the intervention

of the NGO came at a time the community was battling with water borne diseases such as typhoid, cholera and diarrhoea. "We will continue to be grateful to the NGO because with the completion of the project, we will be able to drink, wash and bath with clean and pure water, unlike the dirty stream

water we were used to."

Obinna said the essence of establishing Stitching Water Life Africa was to help reduce water related diseases in rural communities in Africa by providing bore-holes and wells for such communities.

He said it was to prevent water borne diseases that his organisation decided to complement the efforts of the state government in making life more meaningful to the people.

Obinna, who said the organisation was founded by he and his wife, Daene Obinna Boeters, noted that for the project to stand the test of time and benefit the people of the community, the "organization will always organize a meeting from time to time to encourage the people on how to maintain the facilities"

He was optimistic that people of the community will maintain the water project like the one put in place in Rwanda.
