

21 juni 2008: Midden Delfland Dag

On the 21st of June 2008, being a special day for Midden Delfland in Den Hoorn, Water Life Africa organises a musical festival with a group of band known as Maoma from Zambia, for fund raising on behalf of our foundation, to provide clean drinking water in Africa.

On the day of the festival some of the master degree students from I.H.E. Delft visited our organisation by giving us more courage about saving life, by providing clean drinking water in some of the rural areas in Africa.

The co-founder Stephen Obinna made a speech about the problem of water in Africa. [Click here for more pictures](#)
